PREFACE.

---

In issuing a New Edition of the Bath Directory, the compiler would observe that in addition to the usual information contained in works of this class, will be found an immense mass of information, classified under different heads; among which will be found a list of Clergymen and Dissenting Ministers; an account of the Hospitals, Churches, and other Public Buildings; a Conveyance Directory; List of Magistrates; the Courts of Law; a Synopsis of the Bath Act; and a Complete Postal Directory, with the times of the arrival in and departure from, (of both British and Foreign Mails) this City. The Classification of Professions and Trades, comprises the names of Solicitors, Surgeons, Professors, Innkeepers, Beer Retailers, and Proprietors of Schools, both within and around the City.

The Compiler begs to express his sincere thanks to those Gentlemen who have so kindly afforded him assistance in the various branches of information, and to assure his numerous Subscribers, that neither expense nor labour has been spared to render the work as complete as possible: and he sincerely hopes, that on examination, it will be found inferior to none of its predecessors.

Letters once deposited in the Post Office, cannot, under any circumstances, be given up to any but the parties to whom they are addressed, they being no longer the property of the senders.

Letters addressed to a Bankrupt can be delivered to parties upon forwarding to the Postmaster a written order signed by a Commissioner of Bankruptcy.

Newspapers, when posted at any of the town receiving houses, or at the chief office in Broad street, directed to persons who reside within the limits of the city delivery, are charged one penny each.

Unpaid Letters or Packets put into the letter boxes are charged double the amount of postage to which, had they been prepaid, they would have been liable. The same regulation applies to letters prepaid by stamps, when the full number of stamps has not been affixed.

Letters re-directed become, on re-direction, subject to new rates of postage, which (except to those places abroad to which it is compulsory) may either be prepaid at the time of re-posting, or upon delivery. The prepaid rate only is charged upon re-directed letters.

Coin should not, unless in registered letters, be sent by post.

By an order which came into operation on the 1st November, 1851, all letters or packets posted at any provincial post-office, for places within the United Kingdom, must either be prepaid by stamps, or sent unpaid; money pre-payments for Inland letters being no longer permissible at any such office.

The subscription for a private box is one guinea per annum, and, when due, a notice to that effect will be placed in the box. On Sundays these deliveries from the office window are from 7 to 10 a.m., when the office is closed for the day.

Such permission can only be accorded under very extraordinary circumstances.

The application for Dead Letters must be made at the office window from 10 to 4; all such letters for which owners cannot

be found, are forwarded to the Dead Letter Office, London, after the expiration of seven days.

From the above thirty constables are trained as firemen to the use of the pipes and hose supplied by the corporation; and in cases of fire, information should be immediately made to the constable on the beat, at the nearest police station, and at the central station, Market-place. (*See Fire Escape*.) Complaints against offences and street nuisances, to be made at the central station; and information of robberies, and lost property, should be immediately given at the same place.

To discourage, as much as possible, the system of idle mendicancy, and, at the same time, to assist the deserving pauper, every wayfarer or destitute person begging alms, should be referred to the central police station, where relief and lodging are ensured; in furtherance of this object, the station inspectors are appointed assistant relieving officers for vagrants. Under arrangements so judiciously enforced, no person need beg in Bath; and it is to be hoped the further development of this system of relief will lead to the suppression of professional idleness and vice too often fostered by indiscriminate charity.

ANNO DECIMO QUARTO & DECIMO QUINTO

VICTORIÆ REGINÆ.

CAP. CIV.

An Act for the Improvement

OF THE

CITY AND BOROUGH OF BATH;

FOR THE

REGULATION OF THE MARKETS;

*And for amending the Act for supplying Bath with Water.*

JULY 24th, 1851.

## PREFACE.

In presenting the following synopsis of the New Bath Act to the Public, the Editor informs his readers that it has been his aim to give them a familiar version, which while conveying all the information really necessary for a general acquaintance with it—is divested of much which though absolutely necessary as a legal document, is at the same time useless and in many cases perplexing to the general reader. The original *form* and *words* of the Act with the whole practical sense and meaning have been retained unaltered, new words having been inserted only where the sense absolutely requires it.

## THE ACT.

WHEREAS an Act was passed in the Sixth Year of the Reign of His Majesty King George the Third, intituled *An Act to remove and regulate the public Markets in the City of Bath; for widening certain Streets, Ways, and Passages within the said City, and the Liberties and Precincts thereof, and for opening certain new Streets and Ways within the same; for better paving, cleansing, lighting, watching, and regulating the Streets, Lanes, Ways, and Passages there; to remove all Nuisances and obstructions therein, and to prevent the same for the future; and for better supplying the Inhabitants of the said City, Liberties, and Precincts with Water*: And, whereas an Act was passed in the Thirty-third Year of the Reign of His said Majesty King George the Third, intituled *An Act for paving, cleansing, lighting, watching, and regulating the Streets, Squares, Lanes, Ways, Passages, and public Places within such Part of the Parish of Walcot in the County of Somerset as is not within the Circuit, Precinct, and Jurisdiction of the City of Bath in the same County; and for removing and preventing Nuisances, Annoyances, Encroachments, and Obstructions; and for establishing a proper and effective Police therein; and for licensing and regulating Hackney Coaches, Chairs, Porters, Basket-men and Basket-women within the said City of Bath and a certain Distance thereof*: And whereas an Act was passed in the Forty-first Year of the Reign of His said Majesty King George the Third, intituled *An Act for paving, cleansing, lighting, watching, and regulating the Streets, Squares, Lanes, Ways, Passages, and public Places within the Parish of Bathwick in the County of Somerset; and for removing and preventing Nuisances, Annoyances, Encroachments, and Obstructions; and for establishing a proper and effective Police therein*: And whereas an Act was passed in the Fifty-fourth Year of the Reign of His said Majesty King George the Third, intituled *An Act for better paving, cleansing, lighting, watching, regulating, and improving the City of Bath, and the Liberties and Precincts thereof*: And whereas an Act was passed in the Sixth Year of the Reign of His Majesty King George the Fourth, intituled *An*

*Act to amend an Act of His late Majesty, for paving, cleansing, lighting, watching, and regulating the Streets and public Places within such Part of the Parish of Walcot in the County of Somerset as is not within the City of Bath*: And whereas an Act was passed in the Ninth Year of the Queen, intituled *An Act for more effectually supplying with Water the City and Borough of Bath, and several Parishes and Places adjacent thereto*: And whereas some of the Provisions of the first-recited Act are repealed by the fourthly and sixthly recited Acts: And whereas it is expedient that there should be greater Uniformity of the Provisions for paving, lighting, draining, and otherwise improving the whole City and Borough, and that Authority to enforce such Provisions should be vested in the Mayor, Aldermen, and Burgesses: And whereas the Provisions of the recited Acts now in force are insufficient for the City and Borough, and it is expedient that other Provisions should be made in lieu thereof: And whereas it is expedient that some of the Provisions of "The Public Health Act, 1848," should be made applicable to the City and Borough, and that other Provisions not comprised in that Act, or in "The Public Health Supplemental Act, 1849," should be made for the Improvement of the City and Borough: And whereas it is expedient that Provision should be made for forming a new Street in continuation of *Claverton Street* in the Parish of *Lyncombe and Widcombe*, in the City and Borough of *Bath*, to join the *Wells Turnpike Road* in the said Parish, and also to widen the *Lower Bristol Road* on the North Side thereof, commencing at or near *Bath Bridge*, and terminating at a Distance of One hundred and ten Yards or thereabouts to the Westward of the South End of such Bridge: And whereas it is also expedient that Provisions should be made for authorizing the Mayor, Aldermen, and Burgesses to construct an additional Reservoir in the Parish of *Batheaston*, and to take a further Supply of Water from certain Springs and Streams flowing in such Parish, and to form a Conduit or lay down Pipes for the Conveyance of Water from such Reservoir into the Reservoir or Pipes in the said Parish of *Batheaston*, already formed and laid down under the Provisions of the sixthly-recited Act, and that the Provisions of such Act should be altered and amended: And whereas such several Purposes cannot be effected without the Authority of Parliament: May it therefore please Your Majesty that it may be enacted, and be it enacted by the Queen's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, as follows; (that is to say,)

That this Act shall commence and have effect on *Thursday* the 9th of August, 1851, and that it be called "The City of *Bath Act, 1851.*"

That the Word "*Bath*" shall mean the Municipal City and Borough of *Bath*: The Expression "the Corporation" shall mean the Mayor, Aldermen, and Burgesses of *Bath*; The Word "Street" shall include all Turnpike Roads in *Bath*, and all Parts in *Bath* of Turnpike Roads, and all Thoroughfares and other open public Places in *Bath*.

That the Term "Hackney Carriages" shall include Sedan Chairs and wheeled Chairs; provided that the Licences shall have been granted by Two or more Justices.

That this Act shall be put in force for all the Purposes thereof and shall be carried into execution by the Corporation of the City and Borough.

That the recited Acts as are now in force, are respectively hereby repealed.

That all the Property of Commissioners under recited Acts shall be vested in the Corporation, and may be holden, enjoyed, and disposed of accordingly; Provided always, that the Corporation shall not be entitled to the Benefit of or to enforce Section Sixty of the Act Fifty-eight *George* the Third, Chapter Fifty-five (Local), relative to the Price at which Gas is to be supplied in *Bath*.

That the Repeal of the aforesaid Acts, or such vesting in the Corporation, shall not annul or in anywise prejudicially affect any Contracts, &c., made under repealed Acts but notwithstanding this Act, or anything therein contained, all such Acts, shall be good, valid, and effectual, to all Intents and Purposes, for, against, and with reference to the Corporation as if the same had been made, done, entered into, executed, or instituted by, to or with reference to the Corporation, instead of the respective Commissioners for executing the repealed Acts, and may be enforced in the same Manner, to all Intents and Purposes whatsoever, as if the Corporation, instead of such respective Commissioners, had been party or privy thereto, and the Name of the Corporation, instead of such respective Commissioners, had been used or referred to therein or with reference thereto: Provided always, that the Corporation shall not be entitled to the Benefit of or to enforce any Contract, Agreement, Arrangement, Matter, or Thing under the Authority of the Act 58 *George* the Third, Chapter 55 (Local), relative to the Supply of Gas in *Bath*.

That all Persons indebted to the respective Commissioners for executing the repealed Acts, or to any Person on their Behalf, shall pay the same, with all Interest due for the same, to the Corporation; and all Debts before such Commencement were due, or by, or from such respective Commissioners, or for the Payment of which they respectively are or but for this Act would be liable, shall, according to the Provisions of this Act,

be paid, with all Interest due or to accrue thereon, by or be recoverable from the Corporation.

That any Action, Suit, or Prosecution, shall not abate or be prejudicially affected by this Act, but on the contrary the same shall continue and take effect, as the same would, if this Act had not passed; and all Offences committed against the Provisions of the said Acts may be prosecuted, and all Penalties incurred by reason of such Offences may be sued for, as if this Act had not passed, the Corporation being in reference to such Matters substituted for such Commissioners.

That all Regulations and Restrictions required to be observed in the repealed Acts for the Protection, or Benefit of any Persons, or for the Protection, or for securing the Enjoyment of any Estates or Properties, shall, except so far as is by this Act otherwise expressly enacted, be obligatory on the Corporation as if the Provisions of the repealed Acts in reference thereto had been specially repeated and re-enacted in this Act, and had been made applicable to the Corporation: Provided that this Provision shall not continue in force Section 27 of the Act Fifty-fourth *George* the Third, Chapter 105 (Local), relative to certain Streets and Property in *Bath* to which *Charles* then Earl *Manners* was entitled, as mentioned in the same Section.

That every Officer and Servant acting under the repealed Acts shall hold and enjoy his Office and Employment, with the Salary annexed, subject to the Power of Removal, Regulations, and Penalties, as if he had been appointed under the Authority of this Act.

That all Rules, Byelaws, and Regulations of Commissioners remain in force till altered by the Corporation, and such Regulations &c., thereby imposed, may be enforced and applied in the same Manner as the same might be enforced, and applied in case the same had been made and imposed under the Authority of this Act.

That all Persons who have or shall have in their Possession any Money, Books, Documents, Writings, or Effects belonging to the Commissioners for executing the repealed Acts, shall be liable to account for the same to the Corporation, or to such Persons as they appoint to receive the same.

That all Books and other Documents shall be admitted as Evidence in all Courts of Law and Equity and elsewhere as if this Act had not passed.

That the Corporation may make Sale of, and convey the Estates, Property, and Effects whatsoever of the Commissioners for executing the repealed Acts which by this Act are vested in the Corporation.

That the Sales of any Lands in pursuance of the Provisions

of this Act shall and may be made at such Times as the Corporation think fit, and without the Approbation of the Commissioners of Her Majesty's Treasury.

That "The Lands Clauses Consolidation Act, 1845," except such Parts thereof as are repugnant to any of the Purposes of Provisions of this Act, shall be incorporated with and form Part of this Act.

## MESSRS. C. CLIFFT AND SON.

Respectfully inform the Parents and Guardians of Youth, that they continue to receive a limited number of Pupils to Board and Educate, at the very moderate charges stated below. They conduct their School on principles which combine the advantages of a Sound Education, with strict attention to religious and moral culture.

The House has recently been greatly enlarged,—by the addition of a School Dining Room, and Dormitories,—a good Play Ground is attached, and the situation is most desirable, from its proximity to the Royal Victoria Park, Lansdowne, of well known salubrity—and easy access to the Railway.

Mrs. Clift superintends the domestic arrangements and employs her most scrupulous attention to secure the health and comfort of the Pupils.

The course of Instruction comprises Reading, Writing, English Grammar and Composition, History and Geography, Natural Philosophy, Arithmetic, Book-keeping by Single and Double Entry, use of the Globes, Mapping, the Mathematics, Land Surveying, &c.

### TERMS:

*Including Board, Washing, and Instruction in the above mentioned Branches.*

## DRAWING, MUSIC, AND THE FOREIGN LANGUAGES,

BY APPROVED MASTERS ON THE USUAL TERMS.

THE MOST RESPECTABLE REFERENCES CAN BE GIVEN.

Payments to be made either Quarterly or Half-yearly, and Three Months' Notice required previous to the removal of a Pupil. The Quarter commences from the day of entrance. There are Two Vacations in the Year, of Three Weeks each.

# Bath and its beautiful Neighbourhood.

Among the many advantages,—physical, civil, moral, and religious,—which distinguish this “Queen of the West,” its respectable Establishments for the education of youth are not to be overlooked. Prior Park Colleges on the Southern slope, the New Wesleyan School on the opposite hill, the Grammar School in the heart of the City, and other Schools in its Squares, Crescents, and magnificent Buildings, are, for the most part, to prepare young men for the learned professions, scientific pursuits, and other openings for the Aristocratical classes of Society. On the other hand, there are Schools in and near the City, less Classical in their character, and learned in their pretensions, but not of less utility in general society. Among these is classed

## PORTWAY HOUSE ACADEMY, NEAR PARTIS COLLEGE.

The Principal of this long established and flourishing Seminary, with all due esteem for his brethren in the profession, and hearty wishes for their success, respectfully submits the following particulars of his School to the public for their consideration, and, he would hope for the approval of some who may be induced to honor him with one of the most important trusts that can be committed to mortal man.

Local Situation—pure air, sufficient altitude, beautiful scenery, scope for muscular exercise, large and well-ventilated rooms for study and sleeping, built expressly for the purpose, and about twenty minutes' walk from the City.

Domestic Provision and Accommodations—plain, substantial, comfortable, all seen to by Mrs. Cousins herself, and after the example of old English fare.

Course of Instruction—eminently English, and practical in all its branches. With thirty years' experience the Principal devotes his whole time and attention to the improvement of his pupils—assisted by approved masters in Languages, Mathematics, and the general business of the school.

Very Short Vacations are given, so that pupils from Wales, Ireland, the Indies, or other remote parts, can remain the whole year at a triding charge in addition to the terms stated below.

The Terms comprehend in one sum every charge—for Board, Washing, Instruction, Stationery, and use of School Books, namely, from Eight to Eleven Pounds for the half-year, according to the age and studies of the pupil.

A Sheet with further particulars may be had on application at the School or by letter, addressed to

This Society combines the advantages of *Life Assurance* with those of a safe and profitable *Investment of Capital*. The Plan is original, and cannot be adopted by any other Institution without contravening the enactments for the regulation of Joint Stock Companies.

IMPORTANT AND PECULIAR ADVANTAGES—

*Policies are absolutely INDISPUTABLE, and made PAYABLE TO THE HOLDER BY SPECIAL ENDORSEMENT, thus saving the expense of a transfer deed as well as legacy and probate duty.*

**CAPITAL STOCK :—**

This Stock, is altogether distinct and separate from the *Depositors' Stock in the Investment Department*. It constitutes, with the Premium Fund, a guarantee for the engagements of the Association, and has been provided in order to render the security of the Assured complete.

**MUTUAL ASSURANCE :—**

The *entire profits* belong to the Assured, and are *divided annually* amongst the holders of policies on which five or more yearly premiums have been paid.

**HALF-CREDIT :—**

*Credit given for half the amount of the annual premium for the first five years, without security. The sums for which Credit is given may be liquidated out of the profits from time to time allotted to the Assured.*

**STAMP DUTY :—**

No charge made to Parties assuring in this Branch for Stamp Duty on their Policies.

**NON-PARTICIPATING BRANCH :—**

Assurances may be effected on the Non-participating principle at very low rates of premium; and a variety of Tables have been computed to suit the circumstances and convenience of different classes of Assurers.

**ASSURANCE DEPARTMENT GENERALLY :—**

Premiums may be paid Annually, Half-Yearly or Quarterly; in one sum, or in a limited number of payments.

Thirty days allowed for payment of Renewal Premiums, but Policies having lapsed, may be revived without the Exaction of a Fine, on satisfactory proof of health, and on payment of Premiums in arrear and interest.

**FOREIGN RESIDENCE :—**

Liberty to travel and to reside abroad *without extra charge* has been greatly extended; and special licenses for *particular places*, and general licenses to proceed to any part of the world, are granted on moderate terms.

Officers in the Army and Navy assured at the Tabular Rates when not engaged in active service.

**MEDICAL PRACTITIONERS :—**

Medical men are in all cases remunerated for their Reports.

**SETTLEMENT OF CLAIMS :—**

Policies payable three months after satisfactory proof of death.

**INVESTMENT DEPARTMENT :—**

The object of this Department is to open equally secure and profitable channels of Investment for the surplus Capital of the affluent, and the provident Savings of the Industrial Classes. To persons desirous of placing their money out at interest, but unused to seeking securities, or testing their validity, this Institution offers unusual facilities.

The Investment Stock is represented by two Classes of Vouchers. *Class A.* comprising Shares of *Five Pounds*, and *Class B.* Shares of *Five Shillings* each.

All Deposits are received into, and become part of a common Fund, and *Vouchers, signed by two Directors, are given for every sum Deposited*, and the interest and profits are divided among the Stockholders, in proportion to their respective Deposits.

*Interest may be drawn half-yearly for Income, may become the Premium of a Policy of Assurance, or may be invested with the Association for Accumulation, at the option of the Stockholder.*

Prospectuses and full information may be obtained on application at the Head Office, or to the respective *Agents* throughout the United Kingdom.

## THE BATH WATERS:

THEIR USES AND EFFECTS IN THE  
CURE AND RELIEF OF VARIOUS  
CHRONIC DISEASES.

BY

**JAMES TUNSTALL, M.D.,**

PHYSICIAN TO THE EASTERN DISPENSARY OF BATH.

LONDON: CHURCHILL, and all Booksellers.

### Opinion of the Medical Press.

"Dr. Tunstall has condensed into the volume before us the results of the practice in the Bath Hospital, establishing clearly the fact that the Bath Thermal Waters are a very efficacious remedy in many chronic diseases over which the ordinary treatment has little or no control. There is scarcely a page in the book that is not interesting as to its particular subject; and as there is a great deal of useful knowledge to be collected from the perusal of it, we earnestly recommend the work to our readers as a highly interesting production."—*Provincial Medical Journal.*

"A small unpretending volume, consisting of the personal observation of the author of the cases in which the use of the waters had been most successful."—*Lancet.*

"An interesting little work, in which the history, properties, and composition of the waters are all most fully treated of; the diseased conditions in which their use is admissible, as well as the reverse; and the diet and regimen to be observed, are all discussed. An ingenious and novel diagram forms the frontispiece. The study of the work may much assist the practitioner, and save patients long and expensive continental tours."—*Medical Gazette.*

"Few members of the profession could better perform the task. The book contains a considerable amount of information."—*Medical Times.*

"The fault of many works upon mineral waters, is a desire to shew what they ought to do, rather than what they have done. This cannot be advanced against the present work, in which nothing has been advanced but on the authority of the author's personal experience. A useful guide to medical men."—*Dublin Medical Press.*

"An efficient guide, written by one who, from his opportunities of observation, is likely to be a trustworthy teacher."—*Dr. Ranking's Abstract of Medical Sciences.*

### FREDERICK LULHAM,

Begs to announce that he opened his Establishment with the intention (which he has and will always strictly adhere to) of selling a really good article at the lowest remunerating profit: in fact, to retail a single pair of boots or shoes, at the wholesale prices, being fully satisfied that "small profits and quick returns" is the best system to carry on a large and extensive trade. The prices of his goods being so low, F. L. is aware that some might almost be deterred from buying on account of their exceeding cheapness, he begs to add that he can warrant his goods, manufacturing them all himself, and will undertake to repair at any time, without making the smallest charge any article purchased of him: that may give away or come unsewn.

The distinguishing features of this Corporation are—

The unquestionable security afforded;

The moderate rates of Premium charged; and

The large Bonus or return of Profits made to Life Insurers.

In addition to other important advantages, all of which are fully detailed in the Company's Prospectus.

On all these points *The Scottish Union Insurance Company* may be most favourably contrasted with any similar Institution, not only in respect to the principles upon which the business is conducted, but also as regards the manner in which those principles are brought to bear upon the Interests of the Assured.

### LIFE DEPARTMENT.

Two-thirds of the Profit arising on the Participation Class of Policies (*without being subject to any charges for management*) are divided EVERY FIVE YEARS among those entitled to participate, and may be applied, at the option of the Assured, in any of the following ways:—

1. It may be added to the Sum Assured; or,
2. Applied in Reduction of Future Annual Premiums; or,
3. It may be Surrendered for a Present Payment in Cash.

Notwithstanding the *Low Rates of Premium* charged by this Corporation, the additions made to the Policies at the investigations in 1841, 1846, and 1851, average more than 1½ per cent. *per annum* on the sums insured, upon Policies of Seventeen Years' standing.—The practical effects resulting from this system will at once be seen by the following Table and Extracts from the Company's books:—

**TABLES SHEWING THE ADDITIONS to Policies of £1000 which have been 17 complete years in existence.**

- II. No Entrance-Fee, or additional charge of any description, beyond the Policy Stamp.
- III. Liberal Sums allowed for the Surrender of Policies after Three Premiums have been paid.

**FIRE DEPARTMENT.**
